

BIO ENGINEERING SUMMER TRAINING

15 MAY- 15 JULY 2015

Interdisciplinary Programme in Bioengineering Indian Institute of Science, Bangalore

Short training course in Bioengineering Research

BEST program at the Indian Institute of Science (IISc), Bangalore provides an opportunity to spend a summer working with leading researchers, in a stimulating environment devoted to bioengineering research. The eight-week program combines hands-on research training with a diverse set of didactic and research lectures.

Application Deadline: February 14, 2015

Apply online at www.be.iisc.ernet.in/BEST.html

Key Highlights

Intensive research and hands-on training in a pioneering Bioengineering laboratory

Didactic lecture modules: Biomechanics, Tissue Engineering, Systems Biology and Neural Engineering

Weekly Research Lectures

Interaction sessions with PhD students, Faculty and other researchers
