

Call for Applications: We invite applications from Master students with a keen interest in immunology to participate in the first Global Immunocourse. This exclusive course will be hosted at the IISc campus from December 9 to December 22, 2023.

About the Global Immunocourse: The Global Immunocourse is designed to provide a comprehensive introduction to the foundational knowledge of immunology. It offers a unique opportunity for aspiring immunologists to engage in discussions with leading experts in the field, gaining insights into cutting-edge research and developments.

Course Highlights:

- In-depth lectures on fundamental concepts of immunology.
- Engaging discussions with renowned immunologists.
- Exploration of the latest advancements in immunological research.
- Networking opportunities with fellow students and experts in the field.

Eligibility Criteria: Students pursuing their Master's degree with a strong academic background and a special interest in immunology are encouraged to apply. Applicants should possess a genuine passion for unraveling the complexities of the immune system and a commitment to academic excellence.

Application Requirements: Interested candidates are required to submit the following documents as a single pdf document:

1. Curriculum Vitae (CV): Please provide a detailed CV highlighting your academic achievements, research experience, and any relevant extracurricular activities.
2. Academic Transcript: Include a copy of your official academic transcript from your current Master's course and Bachelor's degree (final transcript).
3. Letter of Interest: Compose a letter expressing your enthusiasm for immunology, your motivations for attending the course, and how you believe this experience will contribute to your academic and professional growth. The letter of interest should not exceed 1000 words.

How to Apply: Please send your application via email to globalimmunocourse.be@iisc.ac.in, by 25 September 2023. In the subject line of the email, please mention "Application for Global Immunocourse 2023."

Support to attend the course: in alignment with Global Immunocourse mission, there are no fees associated with this course. Chosen applicants will also receive a fixed stipend to partly cover their transportation and housing costs.

Join Us for an Unforgettable Experience: The Global Immunocourse promises to be an unforgettable journey into the world of immunology. Gain valuable insights, expand your network, and enhance your understanding of this dynamic and ever-evolving field. We look forward to receiving your applications and welcoming you to the Indian Institute of Science for this enriching experience in immunology.
